The Green Campus, Energy and Environment Policy

Dharmasala College is an undergraduate provincialised co-educational degree college affiliated under the prestigious Gauhati University, Assam, providing three years undergraduate courses in Arts only and it was established in the year 1993 by eminent local philanthropist with the primary aim of providing quality higher education to the educationally, socially and economically backward local community. The college established with an aim to promote as well as impart the quality education irrespective of caste, gender and so on with minimum cost. The motto of the college is to create human resources through the excellence of knowledge and wisdom amongst the youth of the rural areas. Since its inception a large number of students have been able to get suitable employment and quality good numbers of students have found profitable self employment. Many of the students done well and well placed in different walks of life. The college aims to empower girl students by providing the opportunities of higher education to make them employable and financially and socially self reliant.

The college was provincialised by the Govt of Assam in 2021. Since then the college has shown the marks of progress in all respects to the satisfaction of the students and guardians, the scenic beauty and its green surroundings made the college environmentally rich.

The college installs environment –friendly electrical appliances that save energy. The college believes in using low consumption energy system as such LED light.

Waste Management Processes:

Principal,
DHARMASALA COLLEGE

The Dharmasala College commits to reduce impact on environment by its waste. The college is dedicated to manage the waste generated by the college campus. The following are the measures under taken by the college for protecting the environment.

Solid waste Management:

- The College has constructed two separate concrete dustbins for biodegradable and non biodegradable wastes.
- Reduces the use of paper.
- Avoid the use of plastic in the premises.
- The college has installed several dustbins in front of the office rooms and class rooms.
- To make awareness for students about solid and plastic waste management.

Liquid waste management:

- To create awareness on proper utilization of drinking and washroom water.
- To install water tanks.
- To keep notice to stop any water leakage through pipes, taps, tanks , toilet flush etc.

Awareness Initiatives:

Dharmasala College supports and encourages awareness campaigns and other interactive sessions to facilitate effective implementation of green campus, energy and environment policies.

Conduct Energy Audit:

The energy audit has been conducted by the IQAC of the college.

Plastic Free Campus:

Dharmasala College has been giving special attention to the management of solid and plastic waste. All stakeholders of the college are encouraged to avoid the use of plastic. All are given awareness on the hazardous impact of plastic use and pollution. In terms of plastic management, the college commits to adopt the policy of reduce, recycle and reuse in the use of plastic. The local vendors are informed by the college to collect the plastic from the campus and they reuse and recycle the plastic to reduce pollution. The college bans the use of plastic in the campus to make it a **plastic free campus**.
