

Dharmasala College, Dharmasala
Affiliated to Gauhati University, Assam

Best Practices

1. ***“Steps towards the Social Responsibility”***:

Since the establishment in the year 1993, Dharmasala College believes to build a positive enthusiastic and vibrant attitude of the students towards the social responsibility and social liability. As the Institute is located in the rural area of the village Dharmasala and the community has been facing lots of challenge to get a holistic education for improving and building a character to be the social reformer. With this view, the College has been trying to visualize, sensitize the students of the locality to create a huge impact on their behavioural outlook towards the nature, human values and gender equity inside the college campus and also beyond the college premises.

Dharmasala College has been provincialized in the year 2021 by the Govt. of Assam. The Institute has lots of deficiency in terms of infrastructure and financial issues. Apart from the drawbacks of the College, the sole institute in the Dharmasala area has been growing gradually to make a prolific impact in the lives of the students as well as in the locality by creating a positive atmosphere. In view of that, the college has regularly organized various programs to illuminate or mould the students into a higher level in the society. The college has been organizing *World Environment Day* every year to promote the issues relating the Nature. During the celebration of the day, the college highlights the burning concerns of global warming, natural calamity like floods, erosion, landslide etc. On this occasion the students are taught to plant trees and save the biodiversity of the locality. Under the Governmental scheme of *Amrit Brikshya Andolan* with a motto to plant 1 crore sampling and in this noble project of Govt. of Assam, Dharmasala College has also taken a massive measure to have a grand success by planting more than 400 trees inside and outside of the college campus.

Dharmasala College undertakes a plantation drive on aegis of *400 Birth Anniversary of Bir Lachit Borphukan*, a mighty ahom commander-in-chief of Assam. During this program the students learn about a warrior whose dedication, determination and a deep sense of patriotism has been remembered since from the time immemorial.

Dharmasala College has a functioning NSS Unit and it has produced a good number of volunteers to engage themselves to forward their hand to the needy one at the time distress. The NSS unit of the college has adopted a village nearby the institute and surveyed house to house for bringing out the actual data of unemployment, socio-economic condition of the community and their way of livelihood. It has played an important role to bring a change in the minds of its volunteers by conducting different vibrant programs in the college.

Moreover, the NSS unit of the college undertook a drive of *Azadi Ki Amrit Mohotsav* in the college as well as in the locality. Under this auspicious program, the college authority along with the student tried to create and made a huge impact among the neighbouring village by holding an awareness rally on *Har Ghar Triranga*.

The main objectives of all these programs is to bring a change in the students' mind and let them enable to create a beautiful, harmonious society and make a best suitable position among the community in the locality.

2. "***Making Digitalization Campus***":

As the Institute was established in the year 1993 but the college has been provincialized on 5th February, 2024. After the provincialization, the College has been growing gradually to implement technology within the campus with its limited resources. As of now, the college has not received any govt. grants to cater technology based education to the students. Apart from the deficiency in the field of finance, the college has already tried to bridging the gap in terms of digitalization in the campus. The college has installed and renovated a general classroom to digital classroom for providing the blended teaching learning process to the students.

Within the limited resources, the college has installed CCTV throughout the campus for surveillance and monitoring the unwanted incident in the campus. The institution has installed AI Face Biometric for capturing all the staffs' in and out attendance in the college. Dharmasala College has taken a step for providing internet facility within the college premises. In this regard, the institute has installed BSNL fibre to generate the Wifi facilities in the campus. Moreover, the best part of our college is that IQAC has done regular interaction with all HoDs of the College to cater the education to the students through blended learning. By doing so, the students will be enabled to know about the technology based education. With this view, two nos of faculty member have donated a laptop under the aegis of *Vidyanjali* as proposed by the Ministry of Education for elevation of technology in the college. In the conclusion, Dharmasala College is always trying to bring a change in terms of academic, administrative and also seeks to provide a holistic education to the students for marking an impression in the locality.
